

Follow-up on Day 90 after the Stroke: Telephone Script and Documentation Form

Date:	
Patient Number:	
Caller:	

Before you call the patient, check pages 1 to 4 of the Data Collection Form (App. 9B) for missing data that you may be able to collect during the phone call.

The following texts have been recommended by our data protection officer at Klinikum rechts der Isar in Munich.

Conversation with Patient	Conversation with Substitute
<p>At the beginning of the phone call the following information is given:</p> <ul style="list-style-type: none"> • ‘We are calling from [name of the hospital]’ • ‘You are taking part in an observational study on acute stroke treatment, and now we would like to talk briefly about your state of health’ • If applicable: ‘Originally, a trusted person gave consent for you to participate in the study, and now we want to ask you if you agree to the final interview and the pseudonymised processing of your data.’ 	<p>At the beginning of the phone call the following information is given:</p> <ul style="list-style-type: none"> • ‘We are calling from [name of the hospital]’ • ‘Patient X is participating in an observational study on acute stroke treatment and has told us that you may talk to us briefly about his/her health’ • ‘If you speak to us, only your name and telephone number will be stored in the study file (if not, your name and telephone number will be deleted)’
<p>Following this information, the patient consented to talk to us:</p> <p style="text-align: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>Following this information, the patient’s substitute consented to talk to us:</p> <p style="text-align: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</p>

Now go through the items 50 to 56 of the Data Collection Form (App. 9B) and fill them in.

The present form can be kept together with the Data Collection Form.
