Department Profile:

Gazi University Faculty of Medicine which was founded in 1979 started to teach medical students at Dr. Muhittin Ulker Emergency & Traumatology Hospital and first graduates were honoured in June 1985. Gazi University Hospital has become the first public University Hospital to have a TS-EN-ISO 9001 Quality Assurance System

Certificate in 1998. Gazi University Hospital with 906 total bed capacity including Reanimation Unit (12 beds)/ PACU (6 beds)/all other ICUs and 23 central operating rooms (OR)/3 Cardiovascular and thoracic surgery OR/2 Obstetric OR with 3 labour and delivery rooms/3 outpatient OR are equipped with modern technology to teach trainees anaesthesiology practice (general anaesthesia, central and peripheral blocks) for all types of surgery. During rotations of the trainees to each surgery and outpatient units (endoscopy, interventional radiology and other imaging technology units etc.), both basic and specific teaching skills such as ultrasound guided invasive procedures (IV, arterial or central access establishments) or peripheral/plane blocks supported by AI, awake craniotomies, epidural labour analgesia are taught to eligible trainees based on the predefined curriculum to improve their performance by the faculty members. As of today, total number of actively working faculty member is 20 in the Department of Anaesthesiology & Reanimation (12 prof., 6 associate prof., 2 assistant prof.) and 3 academic attending staff. All the faculty members are responsible for practical and theoretical

training/education of all trainees during working hours. Each faculty member has to supervise at least 2 trainees graduation thesis. During academic calendar (from October till June), each faculty member (with or without company of the designated trainee) is responsible to present one seminar on every Fridays (between 8.00 am-9.00 am) and journal club every Wednesdays (between 7.30 am-8.00 am). Trainees are encouraged to attend annual meetings of international/national anaesthesiology society to present their works and subsequently publish them in peer review journals under guidance of their supervisors. The hospital is equipped with "Nucleus" computer system program to provide online access to medical records, laboratory results, images, consultation reports and history of all the previously admitted patients and new admissions. Desktop computers are available in every operating room and for all the faculty/staff/personnel/ secretary. Anaesthesiology Department of Gazi University Hospital which is a modern QA-certified tertiary referral center, with 71,153 case load (operations) in one year (2022) offers not only education in terms of practice and scientific perspective for students and trainees in medicine but also provides high quality service for patients in the capital city of the country.

Does the Host Centre offer

observership (will not provide patient care with direct patient contact)

Observership subject to the following legal requirements/prerequisites

Observer visiting trainee or fellows with letter of intent are welcome

Hands-on practice subject to the following legal requirement/prerequisites:

none

Anaesthesia Subspecialty or Intensive Care Medicine training for foreign Trainees are offered (Hands-on training only):

- Obstetric

Anaesthesia Subspecialty or Intensive Care Medicine training for foreign Trainees are offered (Observership only):

- Cardiac
- Head and neck/ENT
- General Surgery
- Vascular Surgery
- Obstetric
- Pain
- Neuroanaesthesia
- Orthopaedics
- Ultrasound Guided Regional Anaesthesia
- Intensive Care Medicine

Educational activities offered

- Journal club
- Departmental lectures
- Interdisciplinary consultations (MDM multidisciplinary meetings)
- One-to-one teaching

Research activity offered

- Data mining
