

**Hospital Name**

Hospital Universitario La Paz - Hospital Maternal

Hospital Address

Pºde la Castellana, 261
Madrid 28046
Spain

Department Profile: (a brief description max 100 words)

The unit of Obstetric Anaesthesia of La Paz University Hospital is part of a reference center in Obstetrics at national level in Spain. We have teaching and investigation programs in this field and are very implicated at international level. We use the most advanced techniques for labour analgesia, obstetric anaesthesia and resuscitation of obstetric patients in a multidisciplinary environment. We are part of the European Network of Obstetric Anesthesia Units created in collaboration with the Subforum of Obstetric Anaesthesia of ESAIC.

Educational offer**The center offers training for:**

Both, Resident/Young specialist and Specialist

The training is applicable for:

Observership (will not provide patient care with direct patient contact)

The observership is subject to the following legal requirements/prerequisites:

The rotation authorization is conditioned by an authorization of the Spanish ministry of Health. More information can be obtained on :

<https://www.sanidad.gob.es/areas/profesionSanitarias/profesion/estanciasFormativasExtranjeros/home.htm>
