

European Society of
Anaesthesiology and
Intensive Care

The purpose of this list is to help prospective candidates determine whether they are eligible for the EDAIC Part II examination. As candidates can apply for the EDAIC from any country, this list cannot be exhaustive. However, should your specialist diploma not appear in this list, please consult with the ESAIC office (exam@esaic.org) before registering for EDAIC Part I or Part II. As chances are high that it may not be accepted. If your diploma is found to be eligible, it will be shown with the "eligible" status in the next update of the list. This list will be reviewed annually. If your diploma appears in the "not eligible" column, you are not eligible for EDAIC Part II and we strongly recommend that you do not register for EDAIC Part I. Please refer to the EDAIC Diploma Guide for more information.
